

Cover Lounge Chair

"The Cover Lounge Chair is born from a desire to bring modern perspectives to the archetypal wooden chair. I wanted to give the design a crisp and contemporary expression through its thin plywood material, paired with the solid and grounded sentiment of its frame and base in solid wood. With the details of its curved backrest that folds gently around the back legs and its warm materiality, the Cover Lounge Chair translates the ideas of Scandinavian craftsmanship into a modern design language."

Description

By combining the ideals of Scandinavian craftsmanship with a modern design language, the Cover Lounge Chair has a simple yet refined expression. The design features a grand seat while taking up little space in the room, complemented by its unique details of curved back, wooden armrest covers and slightly curved seat for any private or professional space.

The Cover Chair Series without upholstery is EU Ecolabel Certified. By carrying the EU Ecolabel Certification, the product is guaranteed to have a reduced environmental impact throughout the total lifecycle of the product from raw material to disposal.

Material

The Cover Lounge Chair is made from form-pressed wood. The wood is folded over the chair's legs and backrest. This technically innovative wood layering helps lock the elements of the chair together. Upholstered seats with textile, imitation leather, or leather. Leather from selected premium leather suppliers.

Back and seat in oak veneer, solid oak frame and legs. Water-based lacquer. Plastic glides.

Oak veneer and Stained Dark Brown: slight color variations can occur due to the inherent characteristics of the material.

Cleaning & Care

Clean with a moist cloth first and wipe off excess liquid with a dry cloth.

Upholstered versions:

Textile: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean, warm water. If necessary, clean by dabbing with soapy water made with a little dish soap. Finally, dab the surface with clean water. We highly recommend that you go to kvadrat.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Imitation Leather: Clean with lukewarm PH-neutral, soapy water and a soft cloth or soft brush. Do not use solvents or chemical cleaners, but cleaning can be done with alcohol-based cleaners. Finally, wipe with a damp cloth afterward.

Leather:

As a natural material, leather requires looking after. If you care for the leather correctly, it will become even more beautiful over time.

Refine Leather, Easy Leather, and Endure Leather: Clean leather with a dry cloth regularly. Treat the leather at least four times a year using only special leather treatment products. Visit ca-mo.com for further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water; otherwise, the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid chemical products, such as saddle soap, leather cleaners, or household products.

Spare Parts

Pre-mounted plastic glides included. Felt and plastic glides can be purchased separately.
